A002 Audit of K-12 Budget Drivers and State Funded Programs

The School Programs audit team assesses school district compliance with legal criteria that must be met as a condition for receiving General Fund monies. There are 295 school districts subject to this audit effort. The team also assists the Special Education Safety Net Committee, works with staff of the Office of Superintendent of Public Instruction on audit resolution, and provides training for school district staff. This audit work has been assigned to the State Auditor's Office by the Legislature via budget proviso since 1998.

A003 Local Government Audit

Appropriation Period: 2011-13 Activity Version: 2C - Enacted Recast Sort By: Activity

The Office of the State Auditor independently audits local governments at least every three years, with the exception of self-insurance plans, which are audited on a two-year cycle. There are approximately 2,400 local government entities, including counties, cities, schools, ports, public utilities, hospital districts, fire districts and a variety of other special purpose districts. Auditors use a risk-based approach, which focuses on public resources most likely to be at risk of loss or misappropriation. For each government requiring a financial statement audit or single audit, we issue financial statement opinions and single audits. Beyond examining the financial condition, accounting and reporting by local governments, the audits assess compliance with the Constitution, state laws, and local government ordinances. Any report disclosing malfeasance, misfeasance or nonfeasance in office on the part of local government officers or employees is referred to the county prosecuting attorney or federal government for recovery of funds and prosecution. Bond rating agencies rely on these audit reports in performing their assessments.

A004 State Government Audit

The office audits annually the basic financial statements prepared by the Office of Financial Management and the required audit of federal financial assistance and conduct an examination of internal controls over public resources and compliance with the Constitution and state laws and regulations. The single audit meets legal requirements contained in the Congressional Single Audit Act. There are 168 state agencies, boards, and commissions subject to this audit effort, which uses a risk-based approach to focus on public resources at highest risk of loss or misappropriation. Audits of state agencies disclosing malfeasance, misfeasance or nonfeasance on the part of any public officer or employee are referred to the Office of the Attorney General or federal government for recovery of funds and prosecution. Bond rating agencies rely on state government audits in performing their assessments.

Statewide Strategy: Support democratic processes and government accountability

Expected Results

To investigate and report, in a responsive and unbiased manner, assertions of improper activities in state government.

001931 Annually, we measure the percent of substantiated assertions compared to all assertions investigated. The State Auditor has the authority to determine whether to investigate assertions received, depending on many factors, including the seriousness or significance of the asserted action. The majority of assertions of improper governmental activity reported to our office are not investigated because of insufficient evidence or issues that are not within our scope of our authority, such as personnel actions.

The Office of the State Auditor, in collaboration with local governments, sets uniform accounting standards for local governments, allowing for consistent reporting of budget and financial information, timely analysis, and greater public understanding. The office helps local governments meet these standards by providing technical assistance and training. Each year, the office works with local governments to update the Budgeting, Accounting, and Reporting Systems (BARS) for local governments. Annually, the office publishes a compilation of local government comparative statistics, a 10-year history of financial information that is used for comparing entities and analyzing programs. These statistics are available on the internet in a reporting system that allows for flexible access of this data by the citizens and other users. State and local policy makers and officials and bond rating agencies often rely on the local government financial reporting system in performing their assessments. The local government financial information is also used by our auditors in assessing risk, which helps determine the scope and frequency of these audits.

Expected Results

To establish uniform systems of budgeting, accounting, and reporting for local governments by class and entity type and to collect and report consistent, timely, and reliable local government financial information.

001932 The Office of the State Auditor, in collaboration with local governments, sets uniform accounting standards for local governments, allowing for consistent, timely financial reporting in accordance with generally accepted accounting principles. The office helps local governments meet these standards by providing technical assistance and training. This financial information is then used by auditors to plan the scope and frequency of audit. Financial audit exceptions increase the cost and burden of audit which the Office works to minimize.

A007 Performance Audits

Appropriation Period: 2011-13 Activity Version: 2C - Enacted Recast Sort By: Activity

Performance audits of state and local governments in Washington are conducted under the authority of Initiative 900, which was approved by voters in November 2005 and enacted as RCW 43.09.470. Since then, our Office has independently selected audit topics in response to citizen input, audit experience, requests by the Governor and the Legislature, and in response to emerging issues. The performance audits are conducted in accordance with the Government Auditing Standards published by the U.S. Government Accountability Office.
